

RAPP SOLUTIONS

Discovering what's possible. Delivering what matters.

We free you from tedious processes, clunky systems, and frustrating workarounds—bringing your vision of a better way to life, **so your team can focus on what matters most.**

We make the process easy for you—getting to the heart of what you need, translating it clearly, and **productively delivering solutions with purpose.**

PROVEN SUCCESS

We've built everything from enterprise systems used by thousands to tools that help teams move faster — **no job is too big or too small.** What sets us apart isn't just technical expertise — it's how we think and work. **Like a builder who's also the architect, engineer, and interior designer, we approach every challenge with the full picture in mind,** eliminating handoffs and delivering transformative results. Explore the solutions below to see how we've delivered results that really matter.

- **Enterprise Project Management System:** Tracks scope, schedule, and funding **for tens of thousands of projects worth over \$30B.** Used daily by hundreds of project stakeholders.
- **Electronic Statewide Transportation Planning System (e-STIP):** **Integrates** transportation planning **workflows from 26 agencies** into a single platform and data source — **saving over 20,000 hours per year.**
- **Interactive Mapping:** Maps integrated with asset inventories, Google Maps, and ESRI to support planning, project management, and transparency.
- **Workflow Automation:** **Eliminated over 20,000 hours per year** of redundant data entry through smart form generation, auto-population, replacing manual reports and system integration.
- **Invoice & Expenditure Tracking:** Streamlined invoicing tracking and approval workflows to **manage tens of thousands of transactions annually.**
- **Legacy System Modernization:** Upgraded entire enterprise systems with modern tech stacks, including **server and database migrations, and code upgrade.**
- **Enterprise Dashboards:** Real-time dashboards **combining data from over 100 database tables and 20 agency offices.** Used to drive important decisions related to projects, programs, and overall agency performance.

RAPP SOLUTIONS

Discovering what's possible. Delivering what matters.

WHAT IT'S LIKE TO PARTNER WITH US

We **know how to get to the heart of what you need without wasting your time.** We iterate at lightning speed and keep you looped in at every step, so you always know what's being built. And if something doesn't feel right, then change the scope. We welcome it — because we're not satisfied until the job is done right. **With us, you don't get one shot at a solution. You get a committed partner who stays until the solution works.** And yes, you'll save time, money, and a whole lot of frustration. When you choose us, we join your team. Our process involves:

Understand Your Goals

We start by understanding your goals and **what matters to your organization.**

Analysis and Discovery

We analyze your processes and data to **find where operations can improve**—or unlock opportunities.

Visual Concept Sessions

We lead **state of the art visual concept sessions** to keep everyone aligned and facilitate decisions.

Design and Delivery

We **design and build powerful solutions.** We can work independently or with existing teams.

WHO WE PARTNER WITH

We partner with **people who believe there is a more effective way to do business.** Who wrestle with clunky tools or processes, disconnected systems, manual workarounds, unclear data, or who have a vision for something better without the time and team to execute. **We partner across sectors and industries — and we truly believe that no agency or challenge is too big or too small.**

WHY WE BUILT RAPP SOLUTIONS

Because we spent years on the business side trying to fix big problems with tech teams—and we saw the same pattern repeat: broken meetings, endless explanations, slow progress, and expensive solutions that never quite fit. So **we built a team inside our agency that worked differently.** We partnered directly with business units to uncover the real problems and deliver strategic solutions that truly transformed how people worked—**saving over \$50 million and eliminating 30,000 hours of manual effort every year.**

Now we're launching a company built on that same proven approach—and the same incredible team. **We're here to help smart, capable teams move forward with clarity, confidence, and tools that make sense.**

OUR COMMITMENT

We'll treat your business like it's our own. We'll care, listen, and stay with you until the solution works just right. **Because the right team changes everything — and we're genuinely excited to be part of yours.** We'd love to hear more about your challenges and explore what's possible.
